

Abstract Submission to EPRI SCTF 5

Update on the EPRI SuperGrid Initiative

Paul M. Grant (EPRI Consultant) and Chauncey Starr (EPRI Founder)

Presenter: Paul M. Grant

We will present an update on the status of the EPRI SuperGrid Initiative, including a review of recent SuperGrid-related papers and related agenda at the CEC-ICMC and American Ceramic Society PacRim 6 conferences. We will emphasize those aspects of the vision which may have relatively near-term relevance to design and deployment of HTSC superconducting dc cable inerties.
