

As the father of an Hispanic-American family, I find it repugnant and reprehensible that the majority of Democrat Senators refuse to allow the constitutional process to proceed on the nomination of Miguel Estrada to the US First Circuit Court. From all aspects, Mr. Estrada appears most eminently qualified in the law for this position and perhaps future ascendance as the first of his ethnicity to the Supreme Court

Perhaps those who feel as I should send a message to those Senators who persist in denying the President and Mr. Estrada an open vote of the Senate by appealing in the next election to that supreme court of each past generation of emerging Americans, the ballot box.
